

**SYSTEMS AND METHODS FOR LOCATION BASED IMAGE
TELEGRAPHY**

ABSTRACT OF THE DISCLOSURE

- 5 **[0062]** Systems and methods for associating images with location and/or other information. In some cases, the systems include an image sensor, a location sensor, and a microprocessor. The microprocessor is communicably coupled to a computer readable medium that includes instructions executable by the microprocessor to: receive a location from the location sensor; receive an image from the image sensor; and associate the location with the image. Some of
- 10 the methods provide for capturing an object image of an object using an image sensor; capturing a location of the image sensor; and associating the location with the object image. Other methods and systems are also disclosed.
